SUMMER CAMP

3-4 years

July 21 to 25

... Let's go on an adventure!

Organization and clarifications

The Kids-Trip camps take place during the day from 8 a.m. to 5 p.m. (depending on road traffic or intensive fun...)

Children are transported by bus by careful animators who are attentive to each of your children.

We always take into account the feeling of the group to offer the children a maximum of well-being and fun.

In case of bad weather, there are many backup solutions,

We will opt for indoor activities and parents will be notified the next day.

Lunches and snacks are provided. If you wish, you can pack a small snack as well

This year the children's camp will take place in collaboration with
the Curved Carrot collective

and Charlotte who will welcome us every day in her small eco-responsible farm.

Kids-Trip

Monday: the little beings of the garden

Le Collectif des Carottes Courbes

Welcome to the enchanting garden of curved carrots, a special garden in which elves and fairies work every day to heal the place.

Children will meet the main magicians of the place (and their respective characters!) and discover the first message they left them, which will invite them to a game of discovery of the place.

We'll get a little morning snack ourselves (berries are delicious!), and we'll even take a little more to make a little recipe.

The afternoon will begin with a story about a rather peculiar chicken coop. We'll go and see how it goes in the hen house of curved carrots, the real one!

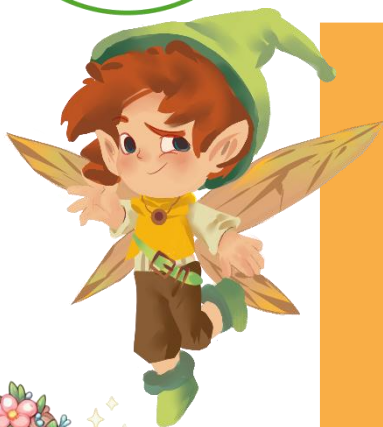

But... There are fairies and elves hidden in the chicken orchard! Let's look for them! The children will each be able to leave with their favorite magician.

Kids - Trip

Tuesday: it's growing!

Le Collectif des Carottes Courbes

A new message is left by the magicians!

They prepared a guessing game of things to touch and taste.

**We can go and try out the different jobs in the garden,
and in particular to make some harvests to complete the dinner, yum!**

**In the afternoon, we will talk about what plants need to live,
and the children will be able to make their own little potty to do as in the large garden.**

**They will be able to choose what they grow there and learn
The basic rules for caring for a plant.**

... Let's go on an adventure!

Kids - Trip

Wednesday : Bzzzzzzzzzz...

Le Collectif des Carottes Courbes

**Oh no! The "head in the air" fairy has dropped all her flowers.
Let's help her find them, she wants to make the bees forage.**

It is what makes the flowers able to feed the bees.

**But what are bees for, by the way? Then where do they live?
We will taste honey from the region for the snack.**

**In the second part of the morning, the children will be able to perform
origami bees and decorate them.**

**They will make a bouquet of flowers to take home,
But be careful, we share with the bees and we never take everything!**

**Wild harvesting is an art. The afternoon will be dedicated to movement games, focused on
collaboration! We will make popcorn from the farm for a snack**

Le Collectif des Carottes Courbes

Thursday: Let's discover our senses

Fairies and elves are everywhere! How about we go and see if we see them on a walk?

We embark on a morning walk of about 1 hour, as close as possible to our senses.

It will be an opportunity to experiment, to walk barefoot, to touch, to smell, to perceive...

Back to the farm for lunch and quiet crafts in the afternoon.

We will paint and let our works dry until the next day.

... Let's go on an adventure!

Kids-Trip

Friday: let's cook together!

Le Collectif des Carottes Courbes

The time for bread has come!

**We will go on the trail of cereals that allow
the making of our rolls that will accompany our dinner.**

What if we dressed up as fairies and elves from the enchanting garden of curved carrots?

**Here we go! We make our masks. We'll all end up as magicians with the power to transform others
by waving the wand in turn!**

**A fun game that will be declined according to the inspiration of the moment to end the camp
happily!**

... Let's go on an adventure!
